Food and Wines

Dear Customer,

Following an unprecedented year, we are very exited to be able to help you bounce back, with an amazing new range of wines and bodegas, as well as a huge effort from us and our Bodegas maintaining our 2019 prices in over 90% of our range, we will all keep working together to share a great future.

You are just two pages away from a bevy of extraordinary new delights added to our range over lockdown. These new selections come from regions spanning the length and breadth of Spain. From Ribeiro in the North West to Alicante in the South East we have your needs covered.

Every good wine menu needs an affordable fruity white which can be sold by the glass with or without food. From north-west Spain our new all terrain white is Pazo de Ulloa from Vitvinicola del Ribeiro - it does the business.

From there we move to Castile-Leon where the wine experts at Prado Rey have produced a high end white. Oak aged and made with varietals naturally found in Castile this is certainly unusual as is indicated by the bottle design.

A new winery to the C & D range is Bodegas Arzuaga. This classic winery has the higher quality wines that your customers have come to expect from a region as prestigeous as Ribera del Duero. Gorgeous oak and oodles of spice and vanilla.

We finish our tour of the new wines in the Alicante region. Two new wines from the unique pago Chozas Carrascal are sure to interest you. From our friend Rafa Cañizares we bring four new wines including a barrel fermented white and wines made from the little known region of Almansa.

We hope this list can offer your customers the breadth, quality and affordability we know can be satisfied by Spain. We wish to thank you so much for your continued support!

Salud!!

CIUDAD REAL

Pago Florentino

The Vino de Pago is a quality seal of approval that is the highest ranking category which can be granted to any Spanish wine. This is Bodegas Arzuaga's 'Quixote'.

In 1997 Florentino Arzuaga, owner and founder of Bodegas Arzuaga, landed in Castilla-La Mancha attracted by the world of olive oil. In search of new land to plant olive trees, Florentino Arzuaga found the 'La Solana' farm , ideal for planting vineyards in the town of Malagón, Ciudad Real province.

The peculiar location of the 'La Solana' farm on the slopes of a mountain range means that its land is on an ideal hillside for growing vines. The vineyard floor is full of granite rocks and clay bedding that add a special minerality.

Other Products and Services- This list shows all the products for which C&D Wines are the agents. We import directly from Spain, Chile, and France and have a considerable amount of control over the price and the stockists. It also means that availability is guaranteed since we ship the products ourselves. Normally we would not expect these prices to change during the year unless there is a large increase in price, exchange rate or duty. Besides this, we have what we call our 'Complementary list'. This is for wines which we do not import ourselves. We buy these wines from the official importer and act as distributors for them. Therefore, we have less control over them. These products may not be continuously available and the prices are more liable to change. However, our policy will be to review these prices on a quarterly basis and change those that the importer may have changed during the previous quarter.
